

Corporate Profile

FAS Finance & Investment Limited has been working together to bring its growth & sustainability for more than a decade to make powerful the industry and national economy. During the last decade, we have observed a remarkable upsurge of concern about the sustainability of economic development over the long run. As a result considerable effort has been invested in the design of an analytical framework that can be used to think about policies that promote sustainable growth. Sustainable growth is the realistically attainable growth that a company could maintain without running into problems. A business that grows too quickly may find it difficult to fund the growth. FFIL built a strong dynamic leadership to face the challenges and ensuring growth & sustainability by the way of profit maximization and moving together to achieve the company's vision.
